In Re: Criminal Complaint(s)

Falsifying Court Documents to Committ Perjury;

Obstruction of Justice.

Dear Mr. weinreb;

Please find enclosed a Motion of Recusal of Federal Judge Saylor IV in a pending habeas corpus, no. 17-11778-FDS. The shocking revelations that your office will deem will shock you. The petitioner is sitting in state prison since June of 2017 because of state agents falsifying Court documents to committ poerjury, and the federal judge has no problem with that.

To put it bluntly, the federaljudge is seriously mentally ill and not qualify to be a federal judge.

I await your response, before I go to Washington.

Sincerely,

James Peter Kyricopoulos,
petitioner, pro-se
presently incarcerated at:
OCCC-Minimum Security
